

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Veritas High Equity (the "Sub-Fund") is a sub-fund of Protea Fund (the "Fund") Class A (Dis) (the "Class") - ISIN: LU1901197852

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The Sub-Fund's objective is to protect and grow the purchasing power of investors' capital over the long term.

The Sub-Fund promotes certain environmental and/or social characteristics. The investment process integrates ESG (Environmental, Social, Governance) aspects based, firstly on the investment manager view and, secondly on third-party research (such as ESG ratings from third party providers).

The Sub-Fund will mainly invest in equities and equity related securities (such as depositary receipts).

The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

On an ancillary basis, the Sub-Fund may invest in any other type of eligible investments, including but not limited to, structured products, debt securities of any type (including money market instruments), undertakings for collective investment (UCIs) or cash.

Without being a constraint, the Sub-Fund can be exposed to 100% of its net assets to equities (and equity related securities) and debt securities should not represent more than 20% of the Sub-Fund's net assets.

The choice of investments will not be limited by geographical area (including emerging markets), economic sector or the currency in which investments will be denominated. However, depending on financial market conditions, a particular focus may be placed on a single country (or some countries) and/or on a single currency and/or on a single economic sector.

However, the Sub-Fund will not invest more than 10% of its net assets in each of the following of assets: UCIs; non-investment grade debt securities; non-rated debt securities.

Investments in closed-ended collective real estate investments (such as closed-ended Real Estate Investment Trusts (REITs)) will not exceed 20% of the Sub-Fund's net assets.

For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over-the-counter. Nevertheless, in normal market conditions, the investment manager does not intend to use financial derivative instruments.

If the investment manager considers it to be in the best interests of the shareholders, the Sub-Fund may also hold up to 100% of its net assets in cash and cash equivalents on a temporary basis and for defensive purposes.

Dealing Frequency

The net asset value for the Sub-Fund is calculated on each bank business day in Luxembourg ("the Calculation Day"). The cut-off time to submit subscription and/or redemption orders is 4 p.m. Luxembourg time on the Valuation Day.

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.
- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The portfolio of this Sub-Fund consists essentially of equities or equity related securities issued worldwide. The objective of the Sub-Fund is to achieve long term capital growth by using equity-linked investment strategies. Hence, the risk/reward profile of the Sub-Fund should correspond to a medium high risk category on the risk/reward scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund may invest a portion of its assets in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which will result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the Management Company or by external third parties or may be damaged by external events, such as natural disasters.

- **Sustainability risk:** This risk is any environmental social or governance event or condition that could impact the value of investments. The Investment Manager primarily relies on its ESG analysis and climate risk indicators to categorise the potential level of Sustainability risks in each fund. The level of sustainability risk may fluctuate depending on which investment opportunities the Investment Manager identifies. This means that the fund is exposed to Sustainability Risk which may impact the value of investments over the long term.

Charges

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
<i>This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.</i>	
Charges taken from the fund over a year	
Ongoing charges	0.75%
Charges taken from the fund under certain specific conditions	
Performance fee	There is no performance fee for this product.

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
